

## COMPLIANCE REVIEW: 2014

### Health and Safety Standards Governance Document

#### 1.0 Mission

Establish, implement, manage and audit agreed-to health and safety training standards and delivery efficiencies for incident free work.

#### 2.0 Objectives

To facilitate the development, implementation and management of processes resulting in standardization and enhancement of the quality and the mechanism of delivery for health and safety training, that will:

- Improve performance of workplace health and safety;
- Develop, implement and sustain standardized health and safety training;
- Deliver quality, cost effective, and timely health and safety training;
- Manage a standardized training delivery accreditation process;
- Develop auditing protocols for all training and accredited trainers;
- Recommended changes that will optimize the common secure training database accessible to all define members.

#### COMPLIANCE REVIEW TEAM OBJECTIVE: (from the Mission Statement)

- Audit agreed-to health & safety training standards in the field

#### PURPOSE:

- To quantify the degree of compliance across Owner/Client member sites so there is an understanding of the status of these approved standards
- To increase the use and/or adoption of these standards which will promote the objectives of the STS

#### COMPLIANCE REVIEW TEAM: Membership

- Members from the three stakeholders:
  - Owner/ Client
  - Building Trades
  - Contractor

#### TIMEFRAME:

- Compliance Review Team Objectives and Checklist developed by November 2013
- Implementation of reviews by December 2013
- Ongoing reviews annually
