MOTORIZED HAND TRUCK AWARENESS (CLASS 3)

COURSE OVERVIEW

Class 3 forklifts are classified as electric motor low-lift and high-lift trucks that operators control by hand, and which are sometimes referred to as “walkies”. As with other classifications of forklift, operators must be competent to use this equipment.

This awareness course provides participants with the basic theoretical and practical knowledge they need to operate Class 3 motorized hand trucks safely.

This course will be scheduled upon request.

PROGRAM CONTENT

- Hazards associated with use of motorized hand trucks
- Identifying appropriate load capacity
- Safe operating procedures

TARGET AUDIENCE

Any person who uses Class 3 motorized hand trucks in the workplace.

PREREQUISITES

None

TRAINING TIME (hours):

30 minutes up to 1 hour (based on quantity of participants)

RECERTIFICATION
