PSD-TRAIN

TRAIN THE TRAINER

COURSE OVERVIEW

This is an interactive workshop designed to cover many topics specific to increasing the skill of a classroom trainer for adults. Participants will develop facilitation skills by taking part in practical exercises throughout the session.

Participants will learn about course development and instructor competencies as well as adult learning principles, and how these principles can be applied to course delivery.

This workshop will give participants the opportunity to practice their skills preparing and presenting training sessions, and using a variety of delivery techniques. Strategies for testing understanding, such as questioning, assessment and evaluation will also be addressed.
